Saved a lot of time again?

ALPHA SELECT:

With ALPHA SELECT we offer a complete software package for implementing indoor distribution boards and meter cabinets.

- So you can spend more time on your other projects.

Sure did!

ALPHA Configuration Software

8

ALPHA SELECT, the selection tool for ALPHA distribution boards and ALPHA meter cabinets. ■ Simply select an ALPHA distribution board up to 630 A with its quick-assembly

kits, assembly kits and the related accessories or a meter cabinet in accordance with DNP stipulations. ■ And you will receive a list of components and a mounting picture.

Planning and Configuration

ALPHA SELECT

Overview

ALPHA SELECT

Using ALPHA SELECT, electricians and electrical wholesalers can quickly select a SIMBOX or an ALPHA distribution board of up to 630 A with its quick-assembly kits, assembly kits and the related accessories. Discounts may be granted for individual items in the related parts list, then the purchasing price is fixed. You just have to print the list of components with the mounting picture - that's it!

ALPHA SELECT is part of the SIMARIS product range.

For further information, please refer to your Siemens contact partner.
