## Order Information

### Ag and Cu surcharges

All products containing silver/copper shall be subject to surcharges if the limit value is exceeded. The level of the surcharges is calculated as follows:

NE metal surcharges =  
("quote for metal" <sup>1)</sup> – "limit value") x the metal weight contained in the respective product

The limit value is as follows:

- for copper (Cu) 150.– €/100 kg
- for silver (Ag) 150.– €/001 kg.

- 1) for Cu: Previous month's average of the upper DEL quotation  
+ 1% handling fee  
for Ag: "German quotation processed";  
both can be found in EIS of GPL.

### Trademarks

All product designations may be registered trademarks or product names of Siemens AG or other supplying companies. Third parties using these trademarks or product names for their own purposes might infringe upon the rights of the trademark owners.

### Ordering special designs

When ordering products that differ from the standard versions, the order number specified in the catalog must be supplemented with a "-Z"; the required features must be specified using the alphanumeric order codes or in plain text.

### Ordering very small quantities

When ordering very small quantities, the costs for handling the order exceed the value of the order itself. We therefore recommend that you combine several small orders. Where this is not possible, please note that we are obliged to make a small processing charge: for orders with a net goods value of less than € 100.– we charge a supplement of € 15.– to cover our order processing and invoicing costs.

### Internet

You can also visit our Automation & Drives site on the Internet at the following addresses:

### Notes

All technical data, dimensions and weights are subject to change without notice unless otherwise specified on the pages of this catalog.

All dimensions are specified in mm, the illustrations are for reference purposes only.

The technical data are for general information. The instruction manuals and the instructions on the products must be observed during assembly, operation and maintenance.

### Siemens contacts on the WWW

At:

<http://www.siemens.de/automation/partner>

you can find details of Siemens contact partners worldwide responsible for particular technologies.

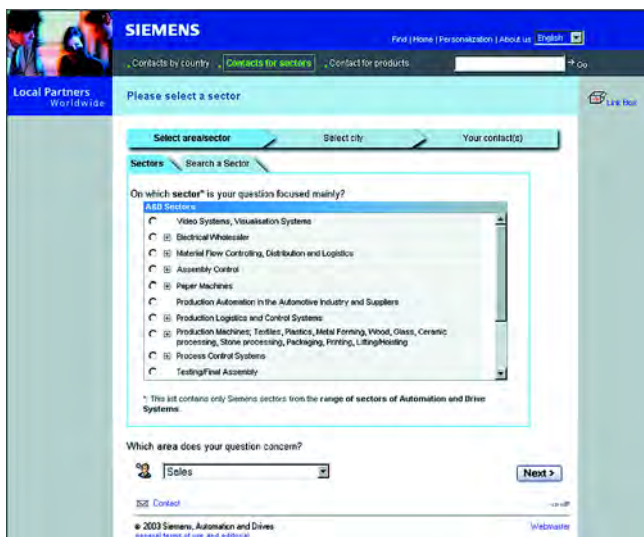

You can obtain in most cases a contact partner for

- Technical Support,
- Spare parts/repairs,
- Service,
- Training,
- Sales or
- Consultation/engineering.

You start by selecting a

- Country,
- Product or
- Sector.

By further specifying the remaining criteria you will find exactly the right contact partner with his/her respective expertise.

# Appendix A&D Online Services

Information and ordering  
on the Internet and on CD-ROM

## A&D on the WWW

A detailed knowledge of the range of products and services available is essential when planning and configuring automation systems. It goes without saying that this information must always be fully up-to-date.

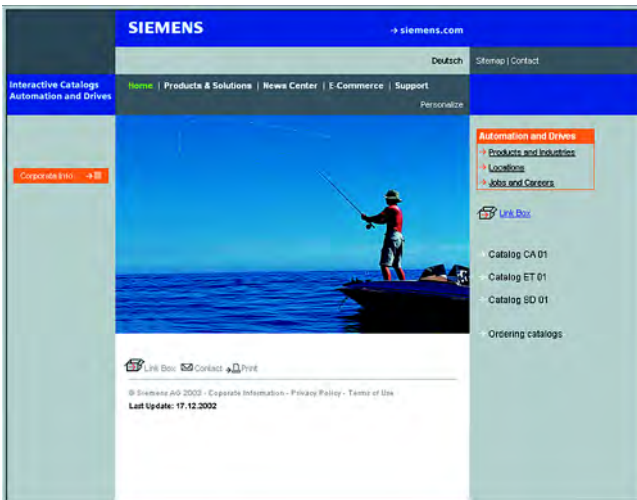

The Siemens Automation and Drives Group (A&D) has therefore built up a comprehensive range of information in the World Wide Web, which offers quick and easy access to all data required.

Under the address

<http://www.siemens.de/automation>

you will find everything you need to know about products, systems and services.

## Product selection using the interactive catalog

Detailed information together with convenient interactive functions:

The interactive catalog CA 01 covers more than 80,000 products and thus provides a full summary of the Siemens Automation and Drives product base.

Here you will find everything that you need to solve tasks in the fields of automation, switchgear, installation and drives.

All information is linked into a user interface which is easy to work with and intuitive.

After selecting the product of your choice you can order at the press of a button, by fax or by online link.

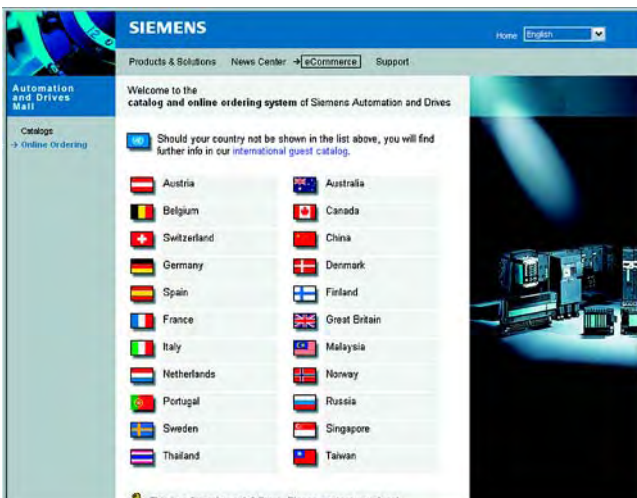

Information on the interactive catalog CA 01 can be found in the Internet under

<http://www.siemens.de/automation/ca01>

or on CD-ROM or DVD.

## Easy shopping with the A&D Mall

The A&D Mall is the virtual department store of Siemens AG in the Internet. Here you have access to a huge range of products presented in electronic catalogs in an informative and attractive way.

Data transfer via EDIFACT allows the whole procedure from selection through ordering to tracking of the order to be carried out online via the Internet.

Numerous functions are available to support you.

For example, powerful search functions make it easy to find the required products, which can be immediately checked for availability. Customer-specific discounts and preparation of quotes can be carried out online as well as order tracking and tracing.

Please visit the A&D Mall on the Internet under:

<http://www.siemens.de/automation/mall>

## Our services for every phase of your project

### General

In the face of harsh competition you need optimum conditions to keep ahead all the time:

A strong starting position. A sophisticated strategy and team for the necessary support - in every phase.

Service & Support from Siemens provides this support with a complete range of different services for automation and drives.

In every phase: from planning and startup to maintenance and upgrading.

Our specialists know when and where to act to keep the productivity and cost-effectiveness of your system running in top form.

### Online support

The comprehensive information system available round the clock via Internet ranging from Product Support and Service & Support services to Support Tools in the Shop.

### Technical consulting

Support in the planning and designing of your project from detailed actual-state analysis, target definition and consulting on product and system questions right to the creation of the automation solution. <sup>1)</sup>

### Configuration and software engineering

Support in configuring and developing with customer-oriented services from actual configuration to implementation of the automation project. <sup>1)</sup>

### Service on site

With Service On Site we offer services for startup and maintenance, essential for ensuring system availability.

In Germany Tel.:  
**+49 (0)180 50 50 444** <sup>1)</sup>

### Repairs and spare parts

In the operating phase of a machine or automation system we provide a comprehensive repair and spare parts service ensuring the highest degree of operating safety and reliability.

In Germany Tel.:
